That's unlawful rent reported and held in custody at US Depository Insitution as well - by the way.

The terms of the undisclosed loan, were annexed and ultimately, was not met with any further opinion or objection upon discovery of the unlawfully reported rent rolls, and with the NYC finance register.

Not a claim was made for money or damages by the Plaintiffs, in fact, I asked to have them barred from practicing and an estoppel. What they did instead was explode one Investment Adviser then lose an additional 1.5 billion dollars and while harassing my privacy and content on a daily basis - to inspect the premises and INTERIOR of my apartment "at-will". Referenced therein those documents is a violation of Privacy, which is tort that bears seve consequences. These docketed and entered just prior to filing the note as dually Notarized by Donald Zucker obo of their entities, and the State Farm family of corporations. This obstruction also caused, in part, for the following statement by their auditors, and filed with the Securities and Exchange as follows:

"...Our procedures included confirmation of securities owned as of September 30, 2021 by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinions..." Pricewaterhouse Coopers—

ADVISERS INVESTMENT TRUST, STATE FARM FUNDS on November 22, 2021 for the period ending September 30, 2021. Please treat this matter seriously as to avoid any further damages to State Farm, who presently hold the rights to their tax risks, also annexed in those dockets, however I included a screenshot for your convenience.
